**BIRTHS in HALSTAD TOWNSHIP, Norman County, Minnesota  
1908 to 1933**

*Births are arranged by surname. If there are several families with the same surname, then they are put in order by the father's given name and in chronological order, so that all children in a family can be kept together. Sometimes the surname is spelled in two ways, and in those cases, the spelling shown first is the spelling of the name in the record of the last child, with the other spelling following in parentheses. Otherwise, names are spelled as shown in the record, even if known to be wrong. Occasionally there will be misspelled words-i.e. Sweden, instead of Sweden-but these were left in, as this was the spelling in the record. A "?" is used to show that information was not recorded for that part of the record. Alphabetical index on page 162.*
