If you are looking for a specific name, it is important to look under all possible spellings of a name. Old handwriting is sometimes hard to decipher and if a parent wasn't sure of the spelling, the recorder may have written a name as it sounded, rather than as it later came to be spelled.

Persons with the same surname may not be in alphabetical order by given name. This was done to try to keep all members of one family together. **BE SURE TO CHECK EVERYONE WITH THE SURNAME FOR WHICH YOU ARE LOOKING**, as some families lost many members during the diphtheria, cholera and consumption outbreaks.

There will be errors in the spelling of the COD, but in most cases they were spelled as written.
